LETTERS FROM BOSTON AMERICAN READERS

Letters from readers are welcomed. Letters should not exceed 250 words, should be written on one side of paper, and must bear

writer's name. Names will be omitted in publications, if requested. Address Editor, Boston American, 5 Winthrop sq.

Writer Preines**South Station**

Editor Boston American:

Now that the South Station is completing many of its improvements, which cannot be praised too highly, Boston has good reason to stress the point that this for convenience and arrangement is the best railroad station in New England.

The North Station claims attention, as it is a great improvement upon the one that was there with its different compartments. Now it is up to date.

But there are so many improvements in the South Station that calls for special mention. Its lighting and heating appliances are well worth referring to. No longer will passengers feel the chill while waiting for trains, but the space is now enclosed and it is warm. This is one of the great advantages of this improvement. As I have to use this station daily I cannot help but call attention in a letter how grateful commuters are for many of these increased advantages.

Connecticut Blue Laws**Are Traced to 1647**

Editor Boston American: May I add fuel to the fire caused by the Blue Laws having their origins at Billerica Falls, Vt., which your paper has described in full.

That writer implying there were no Blue Laws in Connecticut should consider these items. In 1647, in New Haven Row, John Davenport noted that a certain Mr. Blagden was not in the congregation on a Sunday.

Blagden, who owned one suit of clothes had fallen Saturday night into a pond emerging well soaked but with his life.

It was against the laws to light a fire on Sunday, he was obliged to remain in bed. But the court was cold as his trousers and the unhappy man was sentenced to a whipping.

In 1658, Captain Remble, after being at sea several years, returned home on Sunday and found his wife awaiting him on the shore.

SOMETHING TO THINK ABOUT**Editor Boston American:**

The question is asked in your evening edition of Dec. 8, "Why I am an American." Let me say that this is a self-question and an up-to-the-minute one, at that. Your popular and snappy paper has always something interesting for its readers.

First of all let me say I am not one of those who have an explosive nature, although I have lived in good old Boston the greater part of my life and hope to for the remainder of my days, on God's own earth.

My American creed is and always has been "Loyalty to the Stars and Stripes, the flag of our country for which our fathers and sons have died, and for which it need be we will die."

I believe in the United States of America as a government of the people, by the people and for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable, established upon those lofty principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I, therefore, believe it is my duty to my country to love it; to support its Constitution; to obey its laws, to respect its flag, and to defend it against all enemies.

That is why I am an American.

J. LEO MOLLOY

steps of his home. He kissed her in view of every one. He was afterwards arrested for "lewd and unseemly behavior" and sentenced to sit some time in the stocks.

They were called the Blue Laws because they made you feel miserable on distinction to "Red Laws" which meant for royalty.

I. P. MOULTON.

Lack of Thought Robs**People of Best in Life****Editor Boston American:**

Are we getting out of life the material we should, considering the vast resources we have to draw from?

A thoughtful person should be interested in new ideas. Ideas are what count in this world. From ideas famous products, artistic achievement, success, growth.

The greatest industry lives by ideas. When the supply is cut off industry dies. We often read of self-made men, so called, but

there is no such thing as a self-made man.

"For no man liveth unto himself," I can do that by another which I cannot do alone.

Anybody can better themselves by thinking and nobody can make their lives more useful or successful without thinking. Not all, however, are equally gifted for thought. They vary in mental power as well as in physical power. There are many with one can-do-power brains and there are a few with one can-do-power brains. However, if

each of us would make the most of what he has and build up the strength of his mind he would expand and conquer his mental powers as discernibly as he would his body. Each of us is a potential machine, provided we first develop the spirit. Rich need to exercise just the body, alone, but the spirit is the real and it is in which directs or controls to better.

Our fathers who founded our government were men of brains. They were good leaders for us. We should profit by the words and build rather than be led. The line of thought in the right direction is the only one that prospers that can come out of this time. Which would you like to be in control of your own life?

The world must be adjusted to think and act with a common sense. The world wide awake.

G. A. LEE, JR.,

Hartford, Conn.

Concerning Death of**Baby Volstead Act****Editor Boston American:**

I should think if I called it as I am afraid of our schoolboys being endangered by drunken drivers since the Baby Volstead Act has been repealed and think that Massachusetts is no place for decent people to live in, and seems to be led at Mrs. Peabody's.

Anybody who is able to escape from such an undesirable state, he would also be a sinner.

Massachusetts is not half as bad as some of these people who think of radical minds would have us believe.

If we ever needed loyalty and brain-mindedness it is in our state. I fail to see where J. Collins has silver.

Working Together

For high quality and low prices

Between its customers and A&P there is a partnership which works to the advantage of both sides. The customers represent demand on the largest scale. A&P represents supply on an equally large scale.

Customers know they can get at A&P stores whatever they want, the best at lowest prices. A&P, knowing its customers' wants from their daily orders, is never in doubt. It stocks no goods that stay on its shelves unsold. Thereby it avoids losses that would have to be made good in prices.

And because A&P is thus the definitely instructed buying agent of millions of people, it is able to use their united buying power wherever their best interest dictates.

Each customer gets the benefit of every saving, of every wise selection of goods. A&P, relying on many small profits,* gains from increasing numbers of customers. They are attracted by the best service at the lowest cost. If there is a surer way of keeping the cost of food down and the quality of food up, no one has told about it.

Business Men Mix Art With Commerce

MIXING ART WITH BUSINESS, Charles H. Cox, president of the New England Grain Products Company, has chosen art as his sideline. He came upon the idea that business men of New England should join in a co-

operation plan to help each other in artistic endeavors. To this end Mr. Cox, in 1927, founded the Business Men's Art League. You see Mr. Cox at work in his studio in the rear of his home at 683 Franklin st., Melrose.

PROGRESS FETE PLANS DOWN

Plans for a fete to be given at the Hotel Hamilton, to be held on Friday, Dec. 12, to July 15, 1931, have been dropped by the committee. The fete was to be held in the Willard Hotel in Washington, D. C., and was to be the principal speaker.

Business Men Painting for Pleasure in Spare Time

Business men know how to paint. It is a fact. Many of the prominent business men of New England have taken up art as a hobby. The club, which was organized by Charles M. Cox, a leader in the business here, has more than 100 members. Mr. Cox founded the club in the fall of 1927. It is an organization exclusively for business men who are interested in painting. Giving professional art instruction is one of its purposes. It has held a number of exhibitions and has been successful in raising money for the benefit of the state hospital for the insane. The club has been very successful in its efforts to promote art among business men. THOSE FREED SMILE AT VERDICT

Men Convicted Refuse to Pay Fines and Go to Jail to Work Them Out

Two of 13 radicals on trial in Superior Court on charges arising from the demonstration on Tremont st. in October were found guilty today, all the others being freed.

Mark Labron in a first degree assault and William J. Glavin in a second degree assault were found guilty of impeding traffic by blocking a public street without a permit.

Glavin was fined \$20 and Labron \$20. Refusing to pay, they were taken to Charles St. Jail, where they will remain at \$50 a day, 100 days for Glavin and 40 for Labron.

The other defendants showed a proper attitude toward the court, but the 11 defendants, Glavin, were eventually "let off" in his conduct," said Judge Ernest Johnson, as he imposed the maximum penalty on this defendant.

The verdicts were rendered by two different juries, Glavin having been tried separately from the other 12 defendants. Both verdicts were sealed when arrived at by the jurors last night and were read at the opening of court today.

Twenty-three deputy sheriffs and court officers, with 15 police reserves from Middle division were on hand inside and outside the courtroom when the verdicts were read to prevent demonstrations by sympathizers, many of whom were on hand.

Tip 11 defendants who were found not guilty of various charges, including assault and battery on police, attempting to rescue prisoners, and obstructing the peace, included four girls.

SMILE AT VERDICT Those acquitted on all charges were Mary Dunn, Cora Goube, Anne Hindman, Gladie Waldman, Philip Barker, John Anderson, Oliver Correll, Charles Diamond, Walter Correll, M. J. Jalland and George Keshner.

The demonstration on Tremont st. occurred outside the Hotel Bradford while the A. P. of L. convention was in progress. The police broke up an attempted street meeting and there were numerous arrests, both before and after the demonstration. The defendants were arrested and taken to the courthouse, and the verdicts were read at the opening of court today.

Typical Girl Off to Paris

LUCY R. MACDONALD, New England's Typical Girl, chosen from among 200 entrants in the search conducted by the Boston Evening American for the typical girl, is shown as she boarded the midnight train last night at South Station on the first leg of her journey to Paris as the guest of this newspaper and Gloria Swanson, United Artists star. Miss Macdonald, who lives at 62 Rosewood st., Mattapan, will sail Friday from New York on the French liner Le de France for a two weeks' stay in the French capital with all expenses paid.

2 SOCIETY GIRLS TYPICAL GIRL WANT TO FLY OFF ON TRIP

Two young Boston society matrons have taken up flying at the Boston airport. They are Mrs. Frederick L. Dabney, Jr., wife of one of the youngest members of the Boston Stock Exchange, and Mrs. Robert R. Dabney, whose husband is associated with a firm of Boston and New York broker.

Mrs. Dabney, whose husband is a pilot in the United States Army, is now in Europe and Mrs. Dabney, Jr. is now in Europe. They are both interested in flying and have taken up flying at the Boston airport.

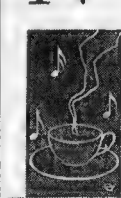

WHIST TO AID BASKET FUND

Proceeds from a charity whist and bridge party to be given for the Boston Evening American Christmas Fund. The committee in charge is headed by John J. Kane. He is assisted by Margaret Butler, Mary Henry and Catherine Meaney.

Arrested 12 Years Ago, Man Shows Up in Court Today

Nearly 12 years after the day when he was supposed to appear in municipal court, Byron Johnson of Shawmut ave., South End, showed up today. In the meantime, the charge against him had become outlived, and so Judge Duff dismissed the complaint. Johnson was arrested in March, 1918, for failing to engage in a useful occupation at least 35 hours a week—a wartime measure.

The extra weight is all juice. One squeeze proves it! And this year there is a mighty army of small Florida oranges marching from sunshine-groves to you. It's thrifty to capture them for juice. WIDESPREAD DREAD OF AFTERNOON ZERO HOUR IS VANISHING

Workers Have Discovered That Mid Afternoon Fatigue Can Be Overcome by Eating Sugar in Some Form

Not so long ago four o'clock fatigue used to be endured and dreaded by countless business people. Not only this exhaustion a drain on the system, but it often led to a failure of production. It required in excess of three and small. The tired body and mind simply could not keep "on the job."

Very recently, however, a simple method has been discovered to overcome this fatigue. This is nothing more than the use of candy, ice cream, cookies and sweetened drinks which are accessible everywhere. Equally effective is the "athlete's cocktail"—a glass of water sweetened with sugar.

It is the sugar in these sweet foods and drinks that invigorates the system. Tea products digest quicker than sugar. As it is digested its energy is immediately ready for use. Think of this as you plan your menu! Also during the pressure of daily work. Most foods are more delicious and nourishing with sugar. The sugar is the key.

NEW YORK STOCK MARKET

New York, Dec. 11.—Stock support for U. S. Steel common at 100 and finally turned the tide in today's stock market.

After a wide decline carrying numerous issues down to 3 to 5 points from the level of the close of the past three to five years, the market rallied upward in the last hour of trading, regaining most of its losses.

Refusal of U. S. Steel to go into new low ground seemed decidedly stimulating to market sentiment. General aggregated 2,900,000 shares.

Atchafalca dropped 2 points, and rounded off U. S. Steel dropped 3 points, to 115, and recovered in 100. American Telephone dipped 3 points, then regained all but a small fraction, and finally recovered a fraction higher, and General Electric showed only fractional variations from the previous close.

Recent heavy losses for tax-inequity in the stock market were believed to have been an important source of the liquidation in order to receive credit on their losses for tax reduction. Heavy stock may not be repurchased for 30 days.

Recent heavy losses in some of the issues caused a general feeling of depression in the stock market. The future of the market for the season, which came in the hands of the copper and silver.

Steel prices, however, seem to be maintaining their recent improvement, and stabilization of wheat and cotton prices are important steps toward relief of confidence.

While the institution was one of the most active in the city, and without important connections, the situation surrounding it had been the basis of speculation. It was felt that this speculative action will "round out" the market and important steps toward relief of confidence.

General aggregated 2,900,000 shares. The institution was one of the most active in the city, and without important connections, the situation surrounding it had been the basis of speculation.
